Report of Webinar on 'Introduction to Research Methodologies'

On February 12, 2024, Dr. Noby George, a Systems Engineer at Allergo Czech Republic, conducted a research webinar titled "Introduction to Research Methodologies" through Google Meet. The session covered fundamental aspects of research, types of methodologies, research design, data collection techniques, and ethical considerations. The diverse landscape of data collection techniques was explored in detail, encompassing surveys, interviews, observations, and experiments. Participants gained valuable insights into selecting the most appropriate method based on their research objectives. The ethical dimension of research was not overlooked, as Dr. Noby George underscored the importance of conducting research with integrity, respecting participant rights, and upholding confidentiality. Dr. Noby George engaged participants, offering valuable insights and encouraging the application of learned concepts in research endeavors. Overall, the webinar provided a concise yet comprehensive overview, serving as a valuable resource for those seeking foundational knowledge in research methodologies.

Workshop Report

Title: Workshop on Entrepreneurship.

Date: 18 November 2023

Venue: Varikkattu Hall, VJEC

Executive Summary:

The Workshop on Entrepreneurship was conducted in association with the IEDC cell of Vimal Jyothi Engineering College, Kannur. The session started sharp by 9:30 am, though the hall was equipped for this setting, by 9 am by the volunteer team. It was held at Varikkattu Hall, VJEC. The workshop was lead by

Mr Rajath Navas, the CEO of Pacelab and Founder of Alphadiet pvt ltd, along with one of his colleague and subordinate Mr. Umer Muqthar one of the former student and a famous Tech and food Entrepreneur. The session has been held for the students of fifth and seventh semesters ECE branch. A total of 71, which was an unexpected number had participated actively in the session.

The session had its primary object to enrich the students with the basics of entrepreneurship and how to develop yourselves and your ideas on enterprises etc...

The session started with a welcome session for the speakers and an introduction session done by Mrs Grace John M, the faculty in charge. The students were much interactive with the speaker such that it was such a wonderful session for them. The speakers too made the session much creative and attractive by forcing the students to raise questions and prizing those students who answered for their tactical questions.

Mr. Rajath Navas made his session to begin with his initial steps which paved such a successful future for him and how students can start up with their new ideas.

Session taught that for the transition from idea to impact, the journey will be a roller coaster of passion, perseverance and trumps.

The session also lightened every minds to work for an innovative situation and to develop their own mindsets for a better future. The presentations that the speakers brought before the students were so interesting. They taught the students how innovation can bring drastic changes in their lives.

The Workshop successfully achieved its objectives by providing a platform for knowledge exchange and networking. The participants left with enhanced understanding and practical insights into innovation and entrepreneurship. The organizers are grateful for the active participation and look forward to organizing more such events in the future.

Report on Workshop

“CodeCaze: Dive into the world of PHP”

for

S4 ADS (2022-26 BATCH)

Workshop on CodeCaze: Dive into the world of PHP

A Workshop on CodeCaze: Dive into the world of PHP was organized on March 5th at the Computer Centre of the CSE department. The aim of this course was to provide additional training to the 4th semester students on various aspects of PHP applications. The workshop covered various topics including basic concepts like introductions to PHP.

This report provides a summary of the activities and its outcomes:

Day 1 :

The Course began with an introduction to PHP. The trainer explained the usage of php in various environments. By the end of the day, the students had a good understanding of basic coding skills in php.

Curriculum

INTRODUCTION TO PHP

Course Description

This course provides students with a thorough introduction to Java, equipping them with the skills to create dynamic and visually appealing desktop applications. Through hands-on lessons, students will master essential concepts in GUI development, state management, and integration, empowering them to build and deploy their own feature-rich apps with confidence.

Course Objective

1. Understand the Basics of PHP.
2. Install and configure PHP learning learning and executing simple programs.
3. Grasp fundamental programming concepts like variables, data types, conditionals, and loops.
4. Explore various handling methods in PHP.
5. Introduce GUI application development, creating basic applications and understanding event handling.

Course Outcomes (CO)

1. Develop a foundational understanding of PHP, discerning their architecture and versions.[Cognitive knowledge level : Apply]
2. Successfully Develop and utilize the PHP, creating basic applications using PHP programming.[Cognitive knowledge level : Apply]
3. Experiment key programming concepts such as variables, conditionals, loops, and basic data structures.[Cognitive knowledge level : Apply]
4. Apply php in web application development.[Cognitive knowledge level : Apply]
5. Demonstrate the ability to design basic GUI applications, with a grasp of event handling for interactive interfaces.[Cognitive knowledge level : Apply]

COs	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2

Introduction

This workshop was conducted for Seventh Semester Artificial Intelligence and Data Science students, to provide the core fundamentals behind the field of Deep Learning. It introduces major deep learning algorithms, the problem settings, and their applications to solve real world problems. This course covers basics and hands on approach to neural networks, understanding how CNN and RNN works with common examples.

The convenor of this workshop was Dr. Manoj V. Thomas, Professor, ADS and the course was organized by Dr. Reema Mathew A, Professor, CSE and Ms. Jissin Kurien, Assistant Professor, ADS and the sessions were handled by Mr. Binil Kuriachan Senior Applied Scientist Microsoft. All the students of S7 ADS participated in the workshop.

Curriculum

The objectives of the course are:

1. To offer students hands-on experience on deep learning algorithms.
2. To familiarize basic python packages for deep learning, computer vision concepts for deep learning, sequence modeling, recurrent neural network also.
3. To enhance the capability to design and implement a deep learning architecture for a real time application.

Course Outcomes (COs) :

CO 1 Implement advanced machine learning concepts using python.

CO 2 Apply basic data pre-processing and tuning techniques.

CO 3 Implement basic neural networks and CNN on standard datasets.

CO 4 Design and Implement sequence modelling schemes.

CO 5 Implement auto encoders on standard datasets and analyze the performance.

Lesson Plan

Day	Plan
18/08/2023	1. Introduction to Deep Learning Linear Regression Enhancement Operations Data preprocessing operations Feed forward neural networks
19/08/2023	Optimization and weight initialization Xavier initialization Kaiming initialization L1 & L2 regularization techniques
29/09/2023	Convolutional Neural Network(CNN) Architecture Convolution operation Variants of convolution functions Efficient convolution algorithms Applications of Convolutional Networks Pre-trained convolutional Architectures : AlexNet, ZFNet, VGGnet-19, ResNet-50.
30/09/2023	Recurrent Neural Network(RNN) Computational graphs RNN design. Encoder – decoder sequence to sequence architectures. Language modeling example of RNN.
27/10/2023	Deep recurrent networks Recursive neural networks Challenges of training Recurrent Networks Gated RNNs LSTM and GRU
28/10/2023	Case study: BERT, Social Media Sentiment Analysis
17/11/2023	Autoencoders Variational Auto-Encoder-under complete Auto-encoder stochastic encoder,denoising encoder Applications of Autoencoders

18/11/2023	Generative models - Boltzmann machines, Deep Belief Networks, Generative Adversarial Networks
-------------------	---

VIMAL JYOTHI ENGINEERING COLLEGE CHEMPERI
DEPARTMENT OF COMPUTER SCIENCE AND
ENGINEERING

(ADS DIVISION)

SEMINAR ON DATA DRIVEN DESTINY: MAPPING CAREERS IN
DATA SCIENCE

Duration: March 05 2024 FN (11:10 AM- 12:10 AM)

Seminar Objectives:- To familiarize students with the abundant career prospects in the field of data science.

Expected Outcome:- Students will be able to identify the career opportunities in data science

Introduction

Department of computer science & engineering -Artificial Intelligence & Data Science successfully conducted a Seminar on **Data Driven Destiny: Mapping Careers in Data Science** , on 5th March 2024 from 11:10 am to 12:10 am. The program was organized for Third Year Computer Science & engineering-Artificial Intelligence & Data Science Students.

The Program was inaugurated by Dr. Manoj V Thomas, Professor, Program Coordinator, computer science & engineering- Artificial Intelligence & Data Science. Third year students and tutors of third year students were present in the inauguration function. Ms. Ancy K Sunny, AP , ADS delivered the welcome address and Ms. Safmina P K . AP, ADS delivered the vote of thanks.

The seminar, hosted by **Suryarjuna Gopakumar**, Founding Engineer - AI, Astuto, was fantastic. Mr. Suryarjuna Gopakumar shared his success stories and case studies of inspiring attendees and motivating them to think creatively and explore new approaches in their own work.

Contents

1. Introduction to Data Science

- Overview of a data scientist
- How to become a ML enginee

2. Resume

- Outlines Your Relevant Skills and Experience
- Grabs the Attention of Employers
- Matches You to the Position
- Can Lead to an Interview

3. LinkedIn

- Job Opportunities:

LinkedIn hosts more than 600 million professional profiles, offering an unlimited supply of network connections and job opportunities

Online Visibility:

- a. When employers or clients Google your name, your LinkedIn profile often appears.
- b. It's a virtual business card that introduces you to the professional world.

4. ChatGPT

- ChatGPT is an AI language model developed by OpenAI. It's based on the GPT (Generative Pre-trained Transformer) architecture and has been fine-tuned specifically for conversational interactions.
- Purposes, Capabilities. Limitations and Safety measures.

5. Hackerrank

- It serves as a platform where over 11 million developers can solve code challenges, practice coding, prepare for interviews, and get hired
- Hackerrank Website

6. Leetcode

- LeetCode is primarily known as a platform for practicing coding problems related to algorithms and data structures
- Data Science Connection: While LeetCode doesn't specifically cater to data science roles, it has become a valuable resource for aspiring data scientists.

7. Kaggle

- Kaggle is a popular platform for data science competitions, collaborative projects, and learning.
- Learning and Collaboration: Kaggle provides an excellent environment to learn, collaborate, and showcase your data science skills. You can work on projects, share notebooks, and engage with the community.

8. Towards Data science

- Platform: TDS is a popular publication on the Medium platform.
- Content: It features articles, tutorials, and case studies related to data science, machine learning, and artificial intelligence.
- Audience: Data scientists, analysts, and anyone interested in staying updated with industry trends.

9. Q&A Session

- Opportunity for attendees to ask questions and seek clarification on seminar topics

VIMAL JYOTHI ENGINEERING COLLEGE
&
DEPARTEMENT OF CIVIL ENGINEERING

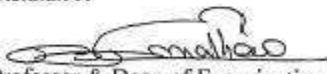

Workshop on skill development

A workshop on skill development was organized by the department of civil engineering for S8 CE students on 29/01/2024 at valloppilly hall. This workshop aims at developing skills which are essential for a civil engineer to build a fruitful career. The resource person focused on the details which will help the students to understand the dynamics of the current market and also he was able to convince the students regarding the need of additional skill requirement for a professional to be more visible to the fast growing industries.

Event Proposal Form

Event proposal - Civil Engineering

Event type and name	A hands-on workshop on Skill development for CE students
Tentative date	29th January 2024
Participants/ Audience	S8 CE Students
Objectives	To develop the various the skills of students .
Resource requirements	Mic, Speaker, Laptop.
Expected outcomes	Students will be able to face all the phases of engineering processes including planning, design and construction.
Connected PEOS/POs/COs	PO1, PO2, P04, PO5, PO9, P012
Resource persons	Mr Pradeep Kumar, Director,AMMY'S PROFESSIONAL ACADEMY
Responsible persons	Co-ordinators Mr Saneesh K Ms Anuragi P Mr Midhun Krishnan R Ms Aswathi k Convenor  Dr. Biju Mathew, Professor & Dean of Examinations.

EVENT PROPOSAL FORM

1	Event type and Name	Workshop on " Approach to Novel Research Techniques"
2	Date and time	22-03-2024 ,10:00 AM to 12:00 PM
3	Participants/audience	S8 ME (2020-24) students
4	Venue	CAD Lab ME Block
5	Objectives	Gap Bridging event " Research based knowledge & familiarization of research tools" • To enable the participants, define research problems, develop an approach to novel research problems and selection of suitable research design & tools • To assist the participants in writing research proposals
6	Expected outcomes	• Participants will get knowledge in selection of suitable research design. • Participants will get knowledge in research paper writing and writing research proposals
7	Connected POs/PSOs	PO2, PO3, PO5, PO6,PO7, ,PO8,PO 12, PSO 1, PSO 2
8	Justification for POs/PSO's	The session will enable the participants to define research problems, develop an approach to novel research problems and selection of suitable research design & tools
9	Resource requirements	Resource Persons: Dr. Anto Sahaya Dhas HOD ECE,VJEC
10	Any other Relevant Information	Nil
11	Responsible Persons	Coordinators Mr. Appu Kurian (AP, ME) & Mejo M Francis (AP, ME)
12	Department	Mechanical Engineering

Proposal prepared by

14/3

Outcomes and Feedback

The primary outcomes of the workshop were;

Knowledge Acquisition in Research Design and Tools:

Participants gained a thorough understanding of various research designs and the tools available to conduct effective research.

Enhancement of Skills in Research Paper and Proposal Writing:

The sessions provided participants with the skills necessary to write structured, coherent, and compelling research papers and proposals.

Feedback from the participants was overwhelmingly positive, with many highlighting the clarity and practicality of the sessions. The hands-on approach was particularly appreciated, as it allowed participants to directly apply what they learned.

Future Implications

The skills and knowledge imparted during the workshop are expected to significantly enhance the research output of the participants. The college anticipates a rise in the quality and quantity of research proposals and papers submitted for academic conferences and publications. Plans for follow-up workshops and continuous learning sessions are in development to build on the success of this event through online forums and access to digital resources.

Conclusion

The "Approach to Novel Research Techniques" workshop at Vimal Jyothi Engineering College successfully met its objectives, leaving participants better equipped to undertake even high-quality research. The college remains committed to fostering a robust research culture that contributes meaningfully to academic and practical advancements in engineering and technology. It has also fostered an environment of learning and curiosity among the college's academic community, significantly contributing to their research readiness and capability.

Event Conclusion

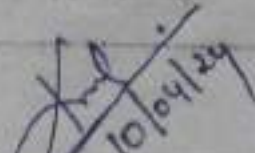

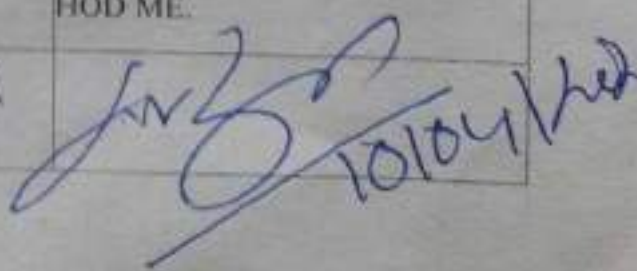

The workshop has been concluded with a vote of thanks by Mr. Mejo M Francis, Asst. Professor in the Department of Mechanical Engineering by 3.30 pm.

Coordinators

Mr. Dillin Dinesh , AP ME

Ms.Sharnimuthu K K, AP ME

E- certificates will be given to all participants who attended the program

Empowerment to Innovate:

The workshop aimed to empower participants to innovate with confidence by ensuring their intellectual property rights are protected. Participants were equipped with the knowledge and resources needed to navigate the intellectual property landscape effectively, fostering a conducive environment for innovation within their respective fields.

Conclusion:

The workshop on Intellectual Property Rights (IPR) & Patents and Design Filing was a resounding success, thanks to the efforts of the organizers, resource person, and enthusiastic participation from attendees. By gaining insights into legal frameworks, understanding patent and design filing procedures, and becoming aware of risks and challenges, participants are now better equipped to protect their intellectual property rights and drive innovation forward.

Recommendations:

To further enhance participants' understanding of intellectual property rights and filing procedures, it is recommended to conduct follow-up sessions focusing on advanced topics such as patent prosecution, licensing, and enforcement strategies. Additionally, providing access to online resources and continuing education opportunities in intellectual property law would be beneficial for participants seeking to deepen their knowledge in this field.

Acknowledgments:

The organizers extend their sincere gratitude to Dr. Silpa PA for her invaluable contributions as the resource person, as well as to all participants for their active engagement and enthusiasm throughout the workshop.

Seminar Report on Entrepreneurship and Successful Start-ups

Introduction

On April 9, 2024, a notable seminar on entrepreneurship was conducted by Dr. V. Sampathkumar, Dean of Research and Professor ECE, Christ College of Engineering Thirussur through Google meet online platform. The event took place at the auditorium of the local university, which was attended by students, faculty members, local entrepreneurs, and several guests from the business community. The seminar was aimed at inspiring and educating the attendees about the nuances of entrepreneurship in the modern era.

Event Details

Title :Entrepreneurship and Successful Startup

Tuesday, April 9 · 2:00 – 3:00pm

Time zone: Asia/Kolkata

Google Meet joining info

Video call link: <https://meet.google.com/evh-fkuc-aea>

Or dial: (US) +1 413-679-2952 PIN: 464 129 066#

Overview of the Seminar

Expert opened the seminar with a comprehensive introduction to entrepreneurship, highlighting its significance in the global economy and its potential to drive innovation and job creation. The seminar covered a variety of topics which were structured into three main sessions:

1: The Essence of Entrepreneurship

- **Definition and Scope:** With a detailed discussion on what entrepreneurship entails, including the characteristics and mindset of an entrepreneur.
- **Global Impact:** Insights were provided on how entrepreneurs contribute to economic development and technological advancements worldwide.

2: Challenges and Opportunities

- **Challenges:** The discussion focused on the common challenges faced by entrepreneurs, such as capital, competition, and market saturation.
- **Opportunities:** Optimistic insights about emerging industries and technologies, stressing the opportunities they present for new ventures.

3: Building a Successful Venture

- **Key Strategies:** Essential strategies for building and sustaining a successful business were shared, including innovation, market research, and consumer engagement.
- **Real-Life Examples:** Several case studies of successful entrepreneurs and startups were examined to provide practical insights and inspiration.

Key Takeaways

Dr. Sampathkumar emphasized the importance of perseverance, creativity, and strategic planning in entrepreneurship. He also discussed the evolving nature of entrepreneurship in the digital age, encouraging attendees to embrace technology and innovation in their entrepreneurial ventures. The key takeaways from the seminar included:

- The importance of a clear vision and a strong understanding of the market.
- The necessity of embracing both failure and success as part of the learning curve.
- The impact of technology in scaling and diversifying entrepreneurial ventures.

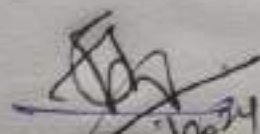

Practical Application

Participants will engage in hands-on activities, workshops, or real-world projects that allow them to apply learned concepts in practical settings.

Reflection and Personal Growth

Participants will be encouraged to reflect on their learning experiences and personal growth, fostering a mindset of continuous improvement and learning.

These Program Outcomes are designed to provide a robust framework for entrepreneurship seminars, ensuring that participants leave with a well-rounded set of skills and knowledge to embark on their entrepreneurial endeavors successfully. Organizers and educators can tailor these outcomes based on the specific focus and audience of their seminar to maximize impact and relevance.
