Focus Academy for Career Enhancement

Focus Academy for Career Enhancement (FACE) is an IIM Graduates' Enterprise designed to cater to the vast and varied needs of today's student community. We provide the right perspective regarding various career options available to the students and sufficiently train them to pursue their careers of choice. Given the clutter of career options available and prevalent group tendencies amongst students, **FACE** believes that expert guidance and training can help students streamline their energy towards their chosen career paths.

The core philosophy of **FACE** is "Any student, if given the right kind of inspiration, motivation, training and sufficient exposure to the opportunities available, will certainly be able to realize his/her potential." With all our service offerings woven around this philosophy, **FACE** aspires to become *the-go-to-service provider* for educational institutions who seek expert help for their student community to identify and attain the career of their choice.

Four key reasons why **FACE** will make a difference to your institution:

- **Best in class Faculty** - Our faculty consists mainly of 95 plus percentilers in CAT, including several IIM graduates. Our trainers are achievers themselves, who will act as an inspiration to the students and help dispel various myths around the placement process.
- **Unique Pedagogy**- Cracking placements is more about skill than knowledge. We teach verbal ability rather than just English; we train on aptitude rather than Maths. Understanding and internalizing this crucial difference makes our pedagogy unique, interesting and effective. Equally important, we emphasise and ensure continuous engagement rather than ad-hoc programs as the key to making a significant impact on the skill levels of your students.
- **Campus placement experience**- Having been part of placement committees in premier institutes, we understand the nuances of campus recruitment. Moreover, in our corporate lives we have been part of recruiting teams, so we know what industry is looking for. We will be able to marry the two and add value to your institution's placement cell by sharing our knowledge about methods of approaching and attracting companies to your campus.
- **Proven Track Record:** In just 9 years, we have become the market leader in India in the employability enhancement training space. We 800+ full-time trainers in the placement training industry in India. We work with over 1500 engineering colleges and have trained more than 20 lakh students so far. We have made significant impact in placements of every kind of college - government and private, old and new, established and upcoming. We have even set world-records.

Dear Rev. Fr. James and Dr. Benny Sir,

Greetings from Training and Placement Cell !!!

Please be informed that a reputed training company, **Insight Job Guru** is conducting a TCS Specific online placement training in the name iSkew. As discussed, Mr. Renjith Kesav (MD, Insight Job Guru), I understand that the cost for 8 hours session (1 hour online training + 2 mock tests per day) is Rs.400/- (Four Hundred) per student. The new batch is scheduled to start from tomorrow (13/10/2020).

We have **217** TCS eligible students in the 2021 batch (AEI-7, CE-69, CSE-46, ECE-35, EEE-17 and ME-43). As per the last week statistics, 51 students have registered for TCS drive. Realistically, I expect that the registrations would be around 100 as on date.

A good number of students are ready to attend TCS specific training by making payment. I wish to seek your approval if we can support those students by bearing 50% of the cost for iSkew training i.e., Rs.200/- per student.

The total expected training cost from the college side = 50 Students X Rs.200 = **Rs. 10,000/-** (this may slightly vary depending upon the actual number of students register for training).

Look forward to receiving your approval to proceed further.

Thank you.

Justine M Augustine

PROGRESSUM

CORONA, a word that has made the world pause, the humans to think value of their life and created an unstable condition in global economy. The pandemic had left people jobless and a fear in the mind of youngsters (UG / PG students) especially the final years about their dream career and the heavy competition outside.

We are presenting a small solution to this through **PROGRESSUM**, dream of 3 people who had successfully started off their careers in the field of placement training. It is the passion towards the work that we did, made us to think and decide to start a venture of our own by helping the future generation to pursue a career they had dreamt of.

The pandemic has hit the education system diversely paving the way to use advanced technology for educating the future generation. Hence, we have designed online classes and the sessions will be available to them in a flexible manner. Once the pandemic leaves the world, we intend to provide face to face learning as well.

From our experience, we have discovered that along with technical learning, it is very important for the students to get trained in soft skills and aptitude training as well. In order to accomplish this at the right time we are providing tailor made courses to every level of students / institutions in a most innovative way.

What we promise to offer:

- Effective and quality Trainings that satisfy the industry demand.
- Understand the need of students and provide trainings accordingly.
- Fully Committed and Passionate trainer, with deep Experience and knowledge in this area.

Our trainers are highly motivated career guidance trainers with experience in training large group across different states. Proven success in leveraging educational theories and methodologies to design, develop, and deliver successful training programs and integrate instructional technology to provide classroom and virtual training.

We strongly believe that students who undergo this training will have the will power and confidence to tackle any situations in their early stages of career and fetch them the job that they aspire. We provide them timely Mockup Tests and Sample Interviews, thereby enabling each student to determine the area of their weakness and helping them to overcome that. The personal feedbacks that we received from our students have helped us to fine tune the courses as per the student comfort as well as the industry requirements.
