Dear Sir,

Greetings from FACEPrep!

As you might be aware, we have been working with LinkedIn, the world's largest professional networking platform to help students leverage LinkedIn in their career-building while at college. As a part of this **#LinkedInCareerKickstarter** program, we offer their LinkedIn Premium services to the students of our partner institutions completely free of cost.

We had successfully completed Phase 1 and Phase 2 of this initiative and helped 2,00,000 Students use LinkedIn for their academic and professional goals.

There has been an overwhelming response from the FACE Partnered colleges and universities during the Phase 1 and Phase 2 execution. Unfortunately, there were certain institutions that were not able to take up the workshop due to constraints around the academic calendar. We presented this case to LinkedIn and they agreed to extend this service to the third phase with another 1,00,000 coupons.

While **LinkedIn Premium** services offer a host of benefits to students, We see **three major areas** through which the students can directly realize the value

- **Learning:** Students can learn from a bouquet of courses across domains in Technology, Skills & Certifications
- **Professional Networking:** Students would be able to directly connect with recruiters/industry leaders for mentorship and guidance through InMail credit
- **Land Internships:** LinkedIn has been a great platform to network and land jobs and internships

We will also additionally do a **free Career Kickstarter Program** for your students on how to leverage LinkedIn for building their skillsets & careers.

Based on our previous experience this time we would want to prebook the slots to ensure smooth delivery at the time of training.

Please find below the student's onboarding process.

- Step 1: You confirm your interest with the interested student's list in the attached format
- Step 2: You confirm dates for my team to come down to your institution and do the free 1-hour workshop on how to leverage and use LinkedIn. The sessions will be conducted in computer labs. One trainer will be able to handle 6 batches throughout the day. Trainers/Number of days will be decided based on the total number of students
- Step 3: If you are not able to give us the final dates, we request you to provide us with tentative dates on which we can do this onboarding. The students are to be onboarded before 15th March 2023.
- Step 4: Students will be onboarded on given an orientation on how to access LinkedIn and LinkedIn Learning

We have already booked 91,000 coupons from 73 Colleges across India. We have another 9,000 slots open to be offered and we would like the students of your institution to benefit from this.

I kindly request you to reply to this email with the tentative dates for the program at the earliest to avail of these free

services for your students.

I have attached the database template for your reference.

Looking forward to hearing from you soon.

Thanks & Regards,
