It seems to me that the natural world is the greatest source of excitement; the greatest source of visual beauty; the greatest source of intellectual interest. It is the greatest source of so much in life that makes life worth living.

– David Attenborough

Sir David Frederick Attenborough was born on 8 May 1926, an English broadcaster and natural historian. He is best known for writing and presenting, in conjunction with the BBC Natural History Unit, the 9 natural history documentary series forming the *Life* collection that together constitute a comprehensive survey of animal and plant life on Earth. He is a former senior manager at the BBC, having served as controller of BBC Two and director of programming for BBC Television in the 1960s and 1970s. Attenborough is widely considered a national treasure in Britain, although he himself does not like the term. In 2002 he was named among the 100 Greatest Britons following a UK-wide poll for the BBC. He is the younger brother of the director, producer and actor **Richard Attenborough**, and older brother of the motor executive

John Attenborough. At least 15 species and genera, both living and extinct, have been named in Attenborough's honour. One among them is a new species of fan-throated lizard from coastal Kerala in Southern India was named *Sitana attenboroughii* in his honour when it was described in 2018. So far He has received more than 40 awards at International level.

Student Office Bearers, 2018-19.
