ELECTRONICS AND INSTRUMENTATION ENGINEERING DEPARTMENT

VOLUME 2, ISSUE 3

FROM HOD's DESK

With great pleasure and honour I write this foreword for the July issue of our department news letter 'Metron'. The university result of eighth semester was declared. The students of Electronics and Instrumentation got 100% result. I would like to congratulate the 2014 passed out students and the faculty members for

their great effort and achievement .The academic year 2013-14 was really a fruitful one for the department. The department achieved many placements, very good university results. Also our lab facilities were improved and the faculty strength was also increased. I hope the more achievements and im-

provements may happen in this new academic year 2014-15. Lets work together to achieve more and more success.

- Reema Mathew A

FROM STUDENT EDITOR'S PEN

Greetings from the Electronics & Instrumentation Department of Vimal Jyothi Engineering College. Our enrollment continues to ascend great heights of rigorous admissions standards. First of all we would like to thank all those who generously contributed for the 13th edition of EIE Dept Newsletter. Department as a whole, we have received more admission into Electronics & Instrumentation Engineering. Thus, the student body is a remark-

able group of exceptionally bright, ambitious, & hardworking students who are thirsty for a top-flight engineering education. Our students find a diverse curriculum that emphasizes both traditional & emerging areas of Electronics & Instrumentation Engineering, simultaneously developing experimental, communication & leadership skills. A major strength of our department is a truly outstanding faculty, many in the early stages of their carriers,

who have become some of the brightest stars in the instrumentation discipline. I am very glad to become a part of this Newsletter Edition .

VISION & MISSION OF THE DEPARTMENT

Vision: The department strives to enrich professionals of high competency in the arena of Instrumentation Engineering & mould them to adopt the crux of the matter in the field of Automation.

Mission: To prepare the students to envisage beyond the hypothetical thinking & belong to a new era of acquisition & application of Instrumentation Technology to meet the requisition of the changing World.
