MISSION

To empower emerging engineers with state of art technology along with high pattern of discipline, nurture career improvement and develop human and social intellectual qualities necessary for the successful practice of the profession.

VISION

Lead the students in the Quest for attaining excellence in the ever evolving technical trends in the field of Electronics and Communication.

WORDS FROM HEAD OF THE DEPARTMENT

**Knowledge always helps you to reach your destination provided
You know what your destination is...**

It's my pleasure to introduce department news letter NEXUS for the month of July 2013. To begin with, I would like to congratulate the members of this newsletter for having taken much effort in bringing out excellent articles and organizing it in a systematic manner. Our college is one of the premier institutions, unique like a prism reflecting the manifold shades of learning and co-curricular activities. Dept. of ECE in Vimal Jyothi Engineering college is striving hard towards the goal of providing innovative and quality education with high standard to achieve academic excellence. The University results declared for last semester have been good and have shown a rising trend due to untiring efforts of our faculty. Their inspiring inter-active programmes have enabled several among our students in getting suitable placements in most prestigious companies. Special Classes are organized in the college for the enhancement of communication skills without which all knowledge proves to be a vehement vehicle without

wheels, a fragile ship having lost its oars in the turbulent waters. They help in honing the communication skills of our students, apart from imparting special instruction on the functioning of the Corporate World. The role of the Placement Cell is of paramount importance viewed from the angle of employability and creating connectivity with reputed Companies and Industrial Units in order to enhance our students' potential to confidently countenance the competitive job market. Today adequate exposure to the practical work-a-day world is mandatory for the job-oriented generation.

Grounded in our commitment to engineering education innovation and interdisciplinary research, we offer great exposure to students and faculty. Through innovative teaching-learning process a teamwork approach and leadership building experience, our students gain vital communication and critical-thinking skills. I wish all the Students and Faculty a great academic year.

Mrs. Roshini T.V
HOD, ECE Dept.

EDITORIAL

To reach the great height a person needs to have great depth

Dear Readers,

The memories of the past keep up our confidence and the hope of the future is what we live for, but the present is the one that keeps our essence alive. This is what the VJECians believe in - living in the present with a penchant for excellence in every sphere of activity with confidence and vision of the future. We are extremely glad to bring forth to you the 4th issue of News-letter "NEXUS" of Department of Electronics & Communication. The 4th issue of NEXUS brings forth a spectrum of multifarious activities in the Electronics & Communication Engineering department.

The 4th issue of NEXUS covers the news from 10th June 2013 to 08th July 2013. We express our gratitude towards our Principal Dr. Benny Joseph and our Head of the Department Mrs. Roshini T.V for their constant support and encouragement.

Happy Reading!

Mr. Adarsh K. S.
Staff Editor

Dear friends,

Electronics and Communication department of Vimal Jyothi Engineering College exudes a new spirit of learning in all of its students. The students had started the saga of Nexus and we strive to follow the legacy.

It has been a great pleasure in bringing out this issue of Nexus. It was quite a task to bring up all the events held in the department and present it to you in the best way possible but all the members of the team have worked hard for it and the results are now in front of you. The articles include recently held events in the department and few tips for the students' guidance. I hope this issue enlightens you in whichever way possible.

Ms. Laya Krishna
Student Editor

FAREWELL FOR MRS. SHAYINI

Mrs. Shayini R., Assistant Professor of ECE Department, has decided to end her journey in Vimal Jyothi Engineering College and start it afresh at KAPE Thalassery. The ECE Department held a farewell ceremony for her on 26 June 2013 in which all the staff members were present. The staff members bid adieu to one of its best teaching staffs.

Mrs. Shayini R. has dedicated her 7 years to our college. She joined the college as a staff member in the year 2005. And since then she has been a loyal and promising staff of ECE Department. She was promoted to the post of Assistant HOD of the department owing to her hardwork and dedication towards teaching. No other person was as suitable for the post as Mrs. Shayini and she proved worthy of it. Her area of expertise was Microprocessors and from the past few years she took charge of the final year students' academics. She took classes for them and provided them with all the help they requested from her. Not only the final years but also the students of other years are indebted to her for their good academic performances.

The farewell function conducted for her started with a welcoming speech by one of the faculty members of ECE Department. The function was then inaugurated by the HOD of ECE, Mrs. Roshini T.V. Felicitations were done by her colleagues and experiences were shared. Lastly, Mrs. Shayini ended the function by sharing her experiences with the students and the other faculty members.

The whole ECE Department wishes you a wonderful journey ahead Mam. Thank you for all your love and support.

EAGLES

Electronics Association of Great Laborious Engineers was formed with a motto to provide technical support to her clients who are interested in the vast areas of electronics engineering. This departmental association came into existence in the year 2012 by renaming E-NOVA, its former form. It serves as a vibrant association in Vimal Jyothi by taking initiative for a lot of technical programs and activities. This dominant association is now on its workshop to channelize the potential of its members to develop the technical as well as soft skills.

TRAINING BY INSIGHT JOB GURU

The students of 2010-2014 batch underwent placement training by Insight Job Guru team. The batch has been undergoing training from the same team from the past few years. And this training marked the end of the long training process. During this journey the students were polished with many skills such as quick problem solving skills, good communication skills, presentation skills etc.

The training was held by three trainers from the company, Mr. Renjith Keshav, Mr. Mohammad Ikan and Mr. Varun Mishra. The students were trained in problem solving techniques and better presentation skills. They learned many things on how to face the HR interview. Many tips on what to do and what not to do while facing an interview were given to the students. The trainers were gracious enough to help out the students even after the sessions were over. The students of EEE, ECE and AEI department underwent the training for 3 days from 1 July 2013 till 3 July 2013. A test was also conducted by the team to size up the students' analytical skills. The weaknesses were turned into strengths and guidelines were given on how to face an audience. Many confidence boosting exercises which were entertaining yet helpful were performed by the students which gave an incredible push to their morale.

TUTORIAL WEBSITES

The few websites listed below provide tutorials to crack GATE and CAT exam with ease. They provide materials to prepare for the tests on your own. Here is a list to guide you:
