From the HOD

I am glad to note that, by the combined effort of the staff and students of mechanical department, long dream of a departmental news letter is brought to light. I take this opportunity to appreciate all the efforts taken towards this newsletters come true. Wishing that this newsletter serve as a paradigm of mechanical engg. department reflecting all its vibrancies and multicolour competent talents.

Ryne P. M
HOD ME

"THE COOL PROJECT!"

Our S8 Mechanical students did a project on cooling of rocket engines, which was guided by Mr. Jerin Cyriac. It was a huge success

OUR ACHIEVEMENTS

Our students won several prizes in the university arts fest conducted at Sree Nithyananda Institute of Technology.

Alwin K Jose of S6 ME conquered first place in percussion competition.

Sanjo George of S6 ME won 2nd place in western Jazz.

Naveen Krishnan also got 3rd place in Poster making.

Mechanical students are not so far behind at games level.

Vivek Krishnan and Harilal M of S6 ME has also participated in inter university handball competition.

Aneesh VK of S6 ME was the individual champion badminton competition.

Technical achievements

Melvin Cyriac and Shijith A won 2nd prize in paper presentation competition held at St. Gits College of science and technology.

SAE DESK

A certified course on advanced vehicular vibration was organized by mechanical dept. association SAE. The course was conducted by Dr. K. V Gangadharan and his team of ten research fellows, NIT Surathkal. The course included vehicular design considerations including vehicular vibration pattern, the enriched course contents helped to bring out budding design talents in young engineers.

SAE conducted paper presentation competition ENERGY 2K13 to bring out the presentation skills in students, considering the need for communication skill and research mentality. The paper presentation was conducted on 13/3/13.

SAE designed a regular, introductory workshop on "Engine assembly" which includes familiarization to all engine parts re assembling and fitting, which helps in developing new ideas. Engine assembly workshop is conducted regularly once in two months with the help of mech. dept. lab staff. Workshop was a platform for practical explore to job training.

SAE Industrial training was conducted for mechanical students in association with private and public sector companies, like KSRTC etc.
