It gives me immense pleasure to present the forthcoming issue of the departmental newsletter "SRISHTI" as a forerunner of department activities. The department strives to impart knowledge and training of the highest standards. We believe that our students have been well accepted in their job profiles and have consistently exceeded expectations of the dynamic corporate world.

Dr. Biju Mathew
HoD / Civil

I stand awed by the sheer number of contents that have come pouring in for the newsletter. This shows the positive and creative energy of faculty members and students present in the college.

My sincere appreciation goes out for the editorial team for their strenuous and sincere efforts towards putting together the myriad thoughts and dreams of our students and faculties into a meaningful and delightful visual fest. Also I invite the readers of 'Srishti' for their contribution and suggestions for the further issues.

VISION OF THE DEPARTMENT

- ▶ To develop into a center of excellence for quality education moulding competent civil engineering professionals dedicated to the progress and development of humanity

MISSION OF THE DEPARTMENT

- ▶ To provide quality education and training to create competent civil engineer
- ▶ To interact with industries to provide a knowledge base for existing and emerging technologies in the field of civil engineering
- ▶ To inculcate moral and ethical values among the students to mould them as civil engineers with social obligations.

LIVE WEBINAR ON 'CAREER ORIENTATION'

Mr. Ashwin Joy and Ms. Maqsooda JHS organized a live webinar on career orientation for third year and final year civil engineering students. The session was handled by Avodha - India's Largest Skills Training Platform, Infopark Campus, Kochi. Around 100 students attended the session and undoubtedly the webinar was very much information giving and it for sure benefitted all the students in taking up courses befitting them in choosing a better career.

JOB ORIENTED TRAINING!

AVODHA
Learning Made Stronger

Why does Avodha collect the fees after the student gets the job?

Avodha believes that the quality of education is determined only by employability. If the student is unable to find a job after learning the course, the very existence of the course proves to be detrimental.

How does Avodha select courses?

Avodha could have launched over 100 courses if it wanted to. However, we curate courses only based on job availability. We conduct extensive research to determine what kind of jobs are available in the market and we build our courses and course curriculum based on this data. This ensures that our courses are industry-oriented and provide the best chance of employment for our students.

Why do we teach people in the mother tongue?

We believe that the best way to learn is to learn in your own mother tongue, which is why we are focusing on providing courses in students' own mother tongue. All our classes will be in your mother tongue. This will help in improving retention and learning among students.

Why should colleges collaborate with Avodha?

Companies are looking to hire skilled labor, the reason why college placement rates are so low is that companies are unable to find the type of skills they are looking for, at Avodha we do extensive research to ensure that our students are taught in courses with job demand and the skills obtained are at par with industry standards. Avodha also conducts Job Fairs in colleges that have a significant number of Avodha learners. In these job fairs, we attempt to connect Avodha learners with prospective employers that are looking for talented individuals in the fields the former has studied with us.

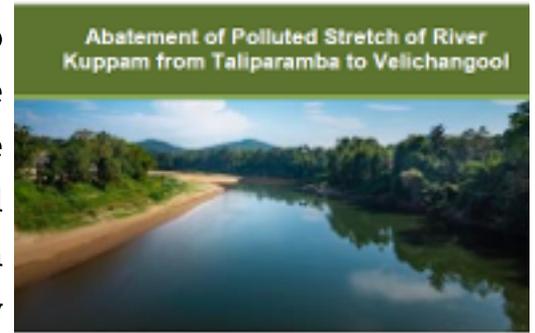

How can a student select courses at Avodha?

Avodha offers courses across various industries and a constantly updated syllabus. However, we understand that students can be confused when it comes to selecting a course. Which is why at Avodha, the student has the freedom to switch from one course to another until they find their final choice. We do not collect any extra fees for this. We want the students to discover their passion since this is the best way to get them to a job as soon as possible.

"Identify your problems but give your power and energy to solutions."

DPR SUBMITTED OFFICIALLY

The Hon'ble National Green Tribunal (NGT) in OA No 673/2018 dated 20.09.2018 ordered for rejuvenation of the 21 rivers identified as "critically polluted" rivers in the State. With regard to this, Department of Civil Engineering had taken up the rejuvenation of Kuppam River. The DPR (Detailed Project Report) as prepared by the team headed by Mr. Ashwin Joy, Ms. Athira Rajendran and Ms. Vinaya SM had officially submitted the report to IDRB, Government of Kerala.

"Go for civil engineering, because civil engineering is the branch of engineering which teaches you the most about managing people. Managing people is a skill which is very, very useful and applies almost regardless of what you do."

- Sir Harvey Jones
