

## Green campus initiatives

- The Green Environmental policy of the institution minimizes pollution by reduce, reuse and recycling.
- Usage of renewable resources wherever possible creates an eco-friendly campus.
- Workshops, seminars, guest lectures are arranged for students to create awareness and to inculcate in their mind about green attitude and a sustainable environment.
- Trees, plants and shrubs and identified by their botanical name, local name and made known to the students. So far 42 species have been identified.
- A "Go Green Club" is functioning in our campus with two student representatives from each class, faculty and staff representative from each department, representatives from administrative and maintenance department as its members. They meet once in two weeks and conduct programs to create awareness about energy use and savings in the campus. National and International days related to Go Green activities are celebrated by conducting competitions like poster painting, essay writing, awareness activities etc. Talks are arranged for students and staff on energy misuse and methods to conserve energy.
