Report

The alumni meeting of the 2003- 2007 batch was held on 28th June 2020 by using the online platform Google meet at 07:30 PM. 19 students from all branches attended the online meeting. HODs and the faculties those who were present during that period were present throughout the meeting. Alumni association president Prof. Laly James welcomed and expressed her gratitude for the members for attending the meet. Manager Rev. Fr. James Chellamgottu addressed all the students and briefed about many topics like placement support, technical support, funding support etc and also welcomed everyone to college campus at any time and also expressed the gratitude in joining the online platform. Principal Dr. Benny Joseph addressed the meeting and explained about the importance interaction of alumni with present students. Fr.Jinu Vadakkemulanjinal joined the meeting and addressed students and pointed out the influence and motivation that can be made by an Alumni in present students. After these students introduced themselves with their family and shared their experiences and happiness. Faculties present in the meeting addressed the students and shared their memories and happiness. All the attendees appreciated the effort of conducting alumni meetings during the lockdown period. Branch wise representative for this batch was elected during the meeting. Vote of thanks was given by Alumini association Secretary Ms. Grace John, AP, ECE.

Hello Jinu Achan, Pious Achan and Jinu Sir,

Thank you for your time over the call today. As agreed, I am sending the document which has the list of selected candidates for the Scholarship (see attached)

I am also sharing the main points discussed below:

1. Though the initial amount we have allocated for this scholarship was INR 50,000, we have decided to add additional amount (INR 16,000) to make the total INR 66,000 to ensure more students/ families are benefitted from this
2. We will be able to transfer the remaining amount, INR 16,000 once Jomy sir confirms the bank account to which we should transfer
3. We decided to make the scholarship reach more families and thus we have increased the number of students who can avail the scholarship from **3 to 6 (1 from each batch)**
4. So each student will get INR 11,000/-
5. Additional details regarding the selection and the students selected can be found in the attached document (please refer to the students highlighted in Green)

I would like to thank everyone for helping us finalize the students' list and helping us facilitate this.

Feel free to reach out to us if you have any queries.

Regards,
Pravil
On Behalf of VJEC First Batch (2002-2006)

Hello Madam/Sir(s),

With great pleasure, I would like to inform you that we have completed the project of building a "Latex Management System".

Early this week, the management of Nalanda Latex and Rubbers, Pathanamthitta used our system for their monthly billing cycle. A few highlights are below:

- 130 customers were onboarded in the application
- 79 invoices were generated for an amount of ~Rs 12 Lakhs
- This process used to take ~24 person-hours in their previous system. It has been reduced to less than a couple of hours. Extraordinary achievement in productivity improvement.

It was a wonderful experience working with Vyshnav, Valshnav, and Kiran. The effort that they put into this project outside their academic workload was inspiring to watch. The tech stack that was chosen was not something they had prior experience with, but that did not deter them in their pursuit of success. The teamwork and hunger for knowledge they exhibited were truly wonderful and I am sure it will set them up for success in the future.

I would like to place on record my sincere thanks to Jomy Sir for quickly taking up my request with the college authorities and setting up this project.

Big thanks to Vidhya Miss for coordinating throughout the last few months and helping the students out.

Thank you to Jeethu Miss and Benny Joseph Sir and VJEC management for encouraging the students to take up such projects that give them real-world experience and exposure to project tools and techniques used in a

professional environment. That is a wonderful initiative and I am sure that it will pay dividends.

As a final note, I would like to share a small monetary compensation to all three students for their time and effort in helping me out with this project. I will work out the details with Jomy Sir and Vidhya Miss.

Thank you all!!

Nalanda Rubbers – Project Kick Off

April 18, 2022

Agenda

- Introduction
- Project Overview
- Expectations
- Operating Model

Project Overview

What is the project about?	Build a web application to manage Billing and Invoicing of Nalanda Rubbers, a medium scale industry in Kerala
Technology Stack	UI: React DB: MySQL Backend: Node, Express, JavaScript
Expected Features	Customer Management Record Collection & Cash Payments Monthly Bill Generation Reports
User Base?	3-5 Users ; not computer savvy
Timelines	4-5 weeks

Expectations

- ✓ Students should be available to spend 10-15 hours per week for the next 4-5 weeks
- ✓ They should be available to join a quick status call (~15-20 mins) daily to evaluate progress
- ✓ Communications can be over email/slack as we agree upon
- ✓ Development should be done on my github repository with the students listed as contributors on the github project
- ✓ On completion, students are free to clone the repository for their future needs, however they should not use the brand names.
- ✓ Data used during the project should not be shared or reused later
- ✓ I will do the backend development (API, Database etc) and you will do the UI
