- OXYGEN CONCENTRATOR PROTOTYPE

Need of the Activity:

OXYGEN CONCENTRATOR

PROTOTYPE

Second year students (2019-23 Batch) had successfully developed a prototype for Oxygen Concentrator.

The basic functionality of this machine is that it filters out the nitrogen in the atmospheric air and thereby providing oxygen rich air.

The aim of this project is compact in all terms i.e. compact in size, cost and weight. It should be affordable for a patient with a below average financial capability and should be with an average build quality
